***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked to form a single general inventive concept under PCT Rule 13.1.

2. In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-5, drawn to a laminate for HDD suspension.

Group II, claim 6, drawn to a method for HDD suspension.

3. The inventions listed as Groups I do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same corresponding special technical features for the following reasons: Claim 1 is either obvious over or anticipated by JP 11-154314. Accordingly, the special technical feature linking the two inventions, a copper alloy foil having a thickness of 14um or less, a tensile strength and conductance of 65% or more, does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore, restriction is appropriate.

4. A telephone call was made to Lee Cheng on December 11, 2007, to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement, to be complete must include (i) an election of a invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
